About Me

Motivated and results-oriented Software Engineering undergraduate at the University of Kelaniya with a strong foundation in software design, problem-solving, and full-stack development principles. Passionate about building innovative, user-focused software solutions that are scalable and efficient. Experienced in delivering real-world academic and personal projects through both independent work and collaborative teamwork. Actively engaged in developer communities and student-led initiatives. A quick learner with a growth mindset and strong communication skills. Bilingual communicator (English, Tamil), eager to contribute to impactful projects and grow in a dynamic engineering environment.

Education

- | | |
|--|----------------------|
| University of Kelaniya , B.Sc (Hons) in Software Engineering | June 2023 – Present |
| • CGPA: 3.4/4.0 | |
| BT/KK/Chenkalady Central College , G.C.E. Advanced Level (Physical Science) | June 2019 – Jan 2022 |
| • Z-score: 2.0101 | |

Projects

Social Media Platform

- Built a full-stack social media platform using the MERN stack. Implemented user registration, profile management, post creation, likes, comments, and follow system. Improved a responsive UI with React and Bootstrap. Integrated JWT-based authentication and REST APIs for secure user interactions and data handling.
- Monolithic project (Individual Project)
- **Technologies Used:** React JS, Node.js, Express.js, JWT, MongoDB, Bootstrap
- **Source Code:** github.com/Jashvanth/Source

Hotel Management System

- Engineered a dynamic hotel reservation platform featuring real-time room availability, secure online payments, and automated room assignment. Enabled efficient guest profile management and multi-room type selection. Prioritized mobile responsiveness and intuitive UI to streamline operations and elevate the guest experience.
- Monolithic project (Individual Project)
- **Technologies Used:** React JS, Spring Boot, MySQL, JWT, Bootstrap, AWS S3
- **Source Code:** github.com/Jashvanth/source

Import Export System

- Architected a web-based trade platform to facilitate seamless international transactions between exporters and importers. Exporters could manage product listings, process orders, and oversee shipments via an interactive dashboard. Importers accessed real-time tracking, order placement, and product discovery tools. Integrated secure JWT-authenticated REST APIs and role-based permissions to ensure data integrity and efficient communication.
- Monolithic project (Individual Project)
- **Technologies Used:** React JS, Spring Boot, Spring Security (JWT), MySQL, CSS
- **Source Code:** github.com/Jashvanth/source

QR-Based Fuel Management System

- Designed a QR-enabled fuel distribution system to control fuel allocation during the COVID-19 crisis. Implemented real-time QR validation, vehicle registration tracking, and automated weekly quota enforcement. Expanded a secure admin dashboard for monitoring, reporting, and regulatory control. Leveraged RESTful APIs and role-based access to maintain secure and scalable operations across fuel stations.
- Monolithic project (Group Project)
- **Technologies Used:** React, Spring Boot, MySQL, RESTful API
- **Source Code:** github.com/Jashvanth/Source

Online Liquor Store Platform

- Enhanced a responsive e-commerce solution for purchasing alcoholic beverages online. Delivered advanced features including product filtering, cart and order management, secure checkout, and real-time inventory tracking. Emphasized scalable architecture, seamless navigation, and robust payment integration to enhance the end-to-end shopping experience.
- Monolithic project (Group Project)
- **Technologies Used:** PHP , HTML , JavaScript, CSS , MySQL , Responsive Design , Stripe
- **Source Code:** github.com/Jashvanth/source

Technologies

Languages: Java, JavaScript, Python, C, PHP , SQL
Frameworks and Libraries : Spring Boot, React.js, AngularJS, Node.js, Express.js
Databases, Cloud and infrastructure : AWS, MySQL, MongoDB
Tools and IDEs : GitHub, Postman, JIRA, PyCharm, VS Code, Visual Studio, IntelliJ IDEA
Development and Integration Tools : REST API, Git
OS : Windows
Soft skills : Leadership, Effective Communication, Googling, Time Management, Critical Thinking, Attention to detail, Multi-tasking

Volunteering Experience

School Prefect , BT/KK/Chenkalady Central College	June 2020 – Feb 2022
• Led student initiatives and maintained discipline as a School Prefect, demonstrating leadership and responsibility.	
Member of Software Engineering Student’s Association , University of Kelaniya	2023 - Present
• Actively supported academic and peer-driven activities in the software engineering community.	
Batch Coordinator of the Tamil Student Association , University of Kelaniya	May 2024 - March 2025
• Organized cultural and academic events while representing the Tamil student body.	

Certifications

SQL (Basic) Certificate – HackerRank, 2025	view certificate
Become a Full-Stack Web Developer – LinkedIn Learning, 2025	view certificate
Amazon Simple Storage Service (Amazon S3) Essentials - Beyond the Basics	view certificate

Achievements

HackerRank Badges: Problem Solving, Java, SQL, C	view certificate
Solved 35+ coding problems on LeetCode	view certificate

Referees

Dr. Nalin Warnajith	
Head/Senior Lecturer(Grade II),Software Engineering Teaching Unit, Faculty Of Science, University Of Kelaniya
